MONDAY, SEPT. 17.

The recent wet weather has made apparent the need of good roads in Cameron county. When are we to have them?

The cadre of letters of telegrams to appear in today's Herald is owing to the military telegraph line being out of working order.

The Clinton carried the following freight yesterday: 2 bales hides, 11 bales skins, 1 bale beeswax, 81 sacks wool and 1 box clothing.

Eighteen witnesses arrived yesterday from Rio Grande City to attend district court, coming over land. There are more to follow.

The following marriage licenses were issued today by County Clerk Webb: Apolinario Rivera and Mannola Siquez, Domingo Hernandez and Felicitas Hernandez.

A number of Mexican flags were displayed by the Mexican societies and other organizations in the city yesterday in honor of the Mexican holiday. The American flag also floated above the court house, the public school building and the Fort Brown administration building.

The mail which should have arrived from Alcee last night, did not reach town until shortly before noon today. The delay was occasioned by a rise in the reservoir of the Cottingham ranch; the water completely covering the bridge. The mail was brought across the water by boat this morning and conveyed to town on horseback.

The unsatisfactory mail service to which Brownsville has been lately treated proves that the county is in need of better bridges. While the various reservoirs are generally crossed by substantial bridges yet the fact that some of them are approached by earthworks which are washed away by a rise in the reservoir makes them altogether unreliable. The county commission should remedy the matter, so that a rise in the Rio Grande may not result in delayed mails for Brownsville.

The readers of his paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.
